

INCREASE NOTICE

At Ntera, we are committed to providing high-quality, reliable broadband services. Earlier this year, the Federal Communications Commission (FCC) set new minimum standards for broadband speeds.

To meet the new requirements of at least 100Mbps download and 25Mbps upload speeds, Ntera will be eliminating the 50Mbps download and 25Mbps upload package. Subscribers will be upgraded to the 100Mbps download and 50Mbps upload speeds for an additional \$10.00 per month. The increase will appear on your December statement for your January service.

Please see back for new speeds and prices. If you have any questions, please contact us by phone at 833.46NTERA or by email at customer@ntera.net.
